**As we strive to diversify and strengthen the region's economy, Hampton Roads faces a labor shortage it has not seen in decades.** Both existing and new businesses need to draw on a well-trained, highly competitive workforce that reflects the shifting demands in job skillsets. In 2018, the Hampton Roads Community Foundation, in partnership with the Hampton Roads Workforce Council, commissioned a workforce gap analysis to gauge the region's workforce competitiveness and inform the development of a regional talent alignment strategy.

Be the first to hear results of this unprecedented workforce gap study and its implications for the **2019 Hampton Roads Talent Alignment Strategy.**

The forum includes a presentation by the Center for Adult & Experiential Learning on the workforce gap analysis and a follow-up panel discussion featuring:

**Jade Arn**, Director of Workforce and Economic Development, CAEL

**Angela Gallagher**, Senior Associate for Workforce Analytics, CAEL

**Dr. Larry "Chip" Filer**, Associate Vice President for Entrepreneurship and Economic Development, Old Dominion University

**Dr. Johnny Garcia**, Founder and Chief Executive Officer, SimIS Inc.

**Dr. Daniel Lufkin**, President, Paul D. Camp Community College

**Casey M. Roberts**, Executive Director, New Horizons Regional Education Centers

**Steven Wright**, Director of Economic Development, City of Chesapeake

**Chris Engle** (*moderator*), Principal, Avalanche Consulting
